

# OUR MEETINGS

(1983-2018)

**FONDATION  
IPSEN**

Science for People

Under the aegis of

**Fondation  
de  
France**

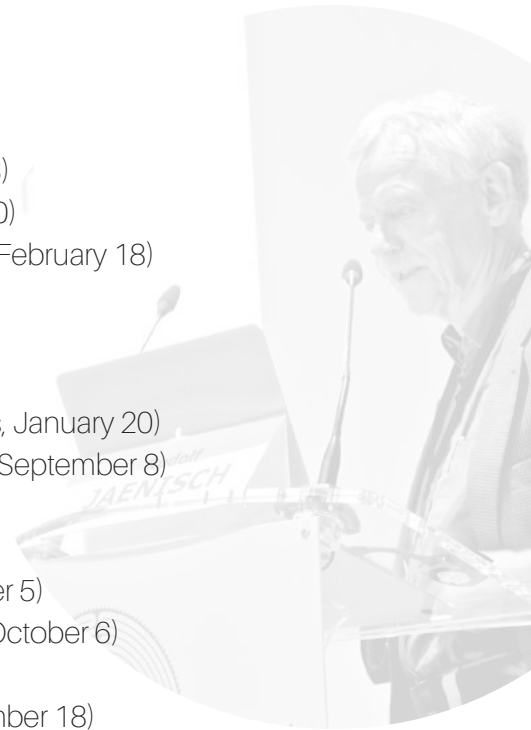

# Research & Perspectives Meetings

## In Neurosciences

- 2016 Genome editing in neurosciences (Paris, April 22)
- 2015 Micro-, meso- and macro-dynamics of the brain (Paris, April 13)
- 2014 Micro-, meso- and macro-connectomics of the brain (Paris, May 5)
- 2013 New frontiers in social neuroscience (Paris, April 22)
- 2012 Programmed cells: From basic neuroscience to therapy (Paris, April 2)
- 2011 Epigenetics, brain and behavior (Paris, April 18)
- 2010 Characterizing consciousness: from cognition to the clinic? (Paris, May 3)
- 2009 Macro-roles for microRNAs in the life and death of neurons (Paris, April 20)
- 2008 Neurobiology of «Umwelt»: How living beings perceive the world (Paris, February 18)
- 2007 Retrotransposition, diversity & the brain (Paris, March 12)
- 2006 Memories: Molecules and circuits (Paris, April 24)
- 2005 Neurobiology of human values (Paris, January 24)
- 2003 Stem cells in the nervous system: function and clinical implications (Paris, January 20)
- 2003 20th anniversary of Fondation IPSEN : From brain to mind (Paris, France, September 8)
- 2001 Neurosciences at the post-genomic era (Paris, December 3)
- 2000 Neuronal death: by accident or by design (Paris, October 9)
- 1998 Neuroimmune interactions and neuropsychiatric diseases (Paris, October 5)
- 1997 Neuroplasticity: building a bridge from the laboratory to the clinic (Paris, October 6)
- 1996 Normal and abnormal development of the cortex (Paris, October 16)
- 1995 Isolation, characterization and utilization of CNS stem cells (Paris, September 18)
- 1994 Neurobiology of decision-making (Paris, October 24) 1993 Temporal coding (Paris, October 11)
- 1992 Motor and cognitive functions of the prefrontal cortex (Paris, November 23)
- 1991 Gene transfer and therapy in the nervous system (Paris, September 23)
- 1990 Glutamate, cell death and memory (Paris, September 24)

## In Alzheimer's disease

- 2012 Proteopathic seeds and neurodegenerative diseases (Paris, February 27)
- 2011 Protein quality control in neurodegenerative diseases (Paris, May 9)
- 2010 Two faces of evil: Cancer and neurodegeneration (Paris, April 26)
- 2009 Diabetes, insulin and Alzheimer's disease (Paris, April 6)
- 2008 Intracellular traffic and neurodegenerative disorders (Paris, April 28)
- 2007 Synaptic plasticity and the mechanism of Alzheimer's disease (Paris, April 16)
- 2006 Alzheimer: 100 Years and beyond (Tübingen, November 2-5)
- 2004 Genotype - proteotype - phenotype correlations in dementia (Paris, September 13)
- 2003 The living brain and Alzheimer's disease (Paris, March 17)
- 2002 Immunization against Alzheimer's and other neurodegenerative diseases (Paris, March 13)
- 2001 Notch from neurodevelopment to neurodegeneration: Keeping the fate (Paris, March 19)
- 2000 Neurodegenerative diseases: Loss of function through gain of function (Paris, February 28)
- 1999 Fatal attractions within neurons: Intracytoplasmic protein aggregates in Alzheimer's disease and related neurodegenerative disorders (Paris, April 12)
- 1998 Epidemiology of Alzheimer's disease: From gene to prevention (Paris, May 11)

- 1997 Presenilins and Alzheimer's disease (Paris, April 28)
- 1996 Connections, cognition and Alzheimer's disease (Paris, May 20)
- 1995 Apolipoprotein E and Alzheimer's disease (Paris, May 29)
- 1994 Alzheimer's disease: Lessons from cell biology (Paris, April 25)
- 1993 The  $\beta$ -amyloid protein precursors in development, aging and Alzheimer's disease (Lyon, June 21)
- 1992 Heterogeneity of Alzheimer's disease (Marseille, April 6)
- 1991 Neurophilosophy and Alzheimer's disease (San Diego, January 11)
- 1990 Growth factors and Alzheimer's disease (Strasbourg, April 25)
- 1989 Imaging, cerebral topography and Alzheimer's disease (Lille, October 16)
- 1989 Biological markers of Alzheimer's disease (Toulouse, April 24)
- 1988 Neuronal grafting and Alzheimer's disease: Future perspectives (Montpellier, September 19)
- 1988 Genetics and alzheimer's disease (Paris, March 25)
- 1987 Immunological aspects of alzheimer's disease and brain amyloidosis (Angers, September 14)

## In Endocrinology

- 2016 Hormone, metabolism, and exercise (Paris, December 5)
- 2015 Stem cells in neuroendocrinology (Paris, December 7)
- 2014 A time for metabolism and hormone (Paris, December 5)
- 2013 Brain crosstalk in puberty and adolescence (Paris, December 2)
- 2012 Hormones intrauterines, health and programming (Paris, December 3)
- 2011 Multiple origins of sex differences in brain, neuroendocrine functions and their pathologies (Paris, November 28)
- 2010 Multi-system endocrine disruption (Paris, November 29)
- 2009 Novel insights in adipose cell functions (Paris, December 4)
- 2008 IGFs: Local repair and survival factor throughout life-span (Paris, December 1)
- 2007 Hormones and social behavior (Paris, December 3)
- 2006 Hormonal control of cell cycle (Paris, December 4)
- 2005 Insights into receptor function and new drug development targets (Paris, December 5)
- 2004 Deciphering growth (Paris, December 6) 2003 Hormones and the brain (Paris, December 8)
- 2002 Endocrine aspects of successful aging, of genes, hormones and lifestyles (Paris, December 2)
- 2002 Brain somatic cross-talk and the central control of metabolism (Paris, January 28)

## In Cancer Science

- 2017 Cancer therapy: Modulating the immune system (Magaliesburg, April 22-26)
- 2016 Tumor metabolism (San Pedro de Atacama, March 5-8)
- 2015 Tumor heterogeneity and microenvironment (Mysore, February 28 - March 3)
- 2014 Cancer genomics (Chantilly, April 12-15)
- 2014 30th anniversary of Fondation IPSEN: Biology viewed through the prism of cancer (Paris, France, April 11)
- 2013 Cancer immunotherapy (Taormina, March 9-13)
- 2012 Mouse models of human cancer: Are there relevant? (Ouro Preto, March 10-14)
- 2011 Epigenetics and cancer (Swakopmund, March 19-23)

- 2010 Stem cells and cancer (Bariloche, March 6-10)
- 2009 Molecular targets of cancer therapy (Jaipur, February 14-18)
- 2008 Metabolism and cancer (Costa Rica, March 9-12)
- 2007 Metastasis and invasion (Spineto, May 20-23)
- 2006 Are inflammation and cancer linked? (Cape Town, February 12-15)
- 2005 Can cancer be treated as a chronicle disease? (Agra, Februray 14-15)

## In Longevity

- 2004 Frailty and longevity (Paris, October 11)
- 2001 Brain and longevity (Paris, October 8)
- 1999 Sex and Longevity: Sexuality, gender, reproduction, parenthood (Paris, October 18)
- 1998 The paradoxes of longevity (Paris, March 23)
- 1996 Longevity: To the limits and beyond (Paris, April 19)

## In Vascular system

- 2008 Oxygen sensing in the vascular tree (Paris, October 27)
- 2007 Angiogenesis and neurogenesis (Paris, October 22)
- 2006 The vascular tree aflame! (Paris, October 9)
- 2005 Life and death of the vascular tree (Paris, October 17)
- 2004 Origins and regeneration of the vascular tree (Paris, October 18)

## Publications

Since sharing the most impacting discoveries is a priority for us, we published several series of scientific reports after each of these meetings. These publications have been elaborated with the essential contribution of the invited speakers, all of them prominent specialists in their domains. Do not hesitate to contact us if you are interested by few of these volumes.

# Meetings organized in partnership with Research Institutes & Scientific journals

## Biological Complexity

Organized in association with **Science**  and  **SALK INSTITUTE**  
FOR BIOLOGICAL STUDIES

- 2018 Biology of Time (Circadian, Lunar and Seasonal Rhythms) (La Jolla, January 22-24)
- 2017 Biology of RNA (La Jolla, USA, January 25- 27)
- 2016 Synthetic biology (La Jolla, January 20-22)
- 2015 Neurodegenerative diseases (La Jolla, January 21-23)

Organized in association with **nature**  and  **SALK INSTITUTE**  
FOR BIOLOGICAL STUDIES

- 2014 Genes and physiology (La Jolla, January 29-31)
- 2013 Molecular biology of psychiatric diseases (La Jolla, January 16-18)
- 2012 Immunology and inflammation (La Jolla, January 18-20)
- 2010 Emerging concepts and trends (La Jolla, October 27-29)
- 2010 Sensory systems (La Jolla, January 13-15)
- 2009 Biological complexity: Processes of aging (La Jolla, January 8-11)
- 2008 Genes, circuits and behavior (La Jolla, January 10-13)
- 2007 Diseases of transcription (La Jolla, January 11-14)

## Bridging Biomedical Worlds

Organized in association with **Science**  and **Science  
Translational  
Medicine** 

- 2018 Genome Editing: The Next Frontier (Singapore, February 5-7)
- 2016 Frontiers in human microbiota symbiotic interactions (Hong Kong, May 23-25)
- 2015 From neural circuitry to neurotechnology (Tokyo, May 11-13)
- 2014 Turning obstacles into opportunities for stem cell therapy (Beijing, October 13-15)

# Days of Molecular Medicine

---

Organized in association with

and

- 2018 The Emerging Asian Epidemic: Cancer and Heart Disease (Hong Kong, March 1-2)
- 2016 Pandemics: Bugs to bedside to biotech (Stockholm, Sweden, October 27-28)
- 2015 Partnerships in translational science and medicine (Stockholm, Sweden, May 7-8, 2015)

Organized in association with

and

- 2012 The translational science of rare diseases: From rare to care (Vienna, October 8-10, 2012)
- 2011 Re-engineering regenerative medicine (Hong Kong, November 2011)

---

## Exciting Biologies

Organized in association with

- 2018 Biology of Time (Phoenix, October 14-16)
- 2016 Biology of commitment (Phoenix, October 16-18)
- 2015 Biology of plasticity (La Jolla, October 10-13)
- 2014 Biology of size (La Jolla, October 27-29)

Organized in association with

and

- 2013 Biology of boundaries (Croatia, October 17-19)
- 2012 Forces in biology (Dublin, October 4-6)
- 2011 Biology of becoming (Kobe, September 29 - October 1)

Organized in association with

and

- 2010 Biology of recognition (Singapore, October 7-9)
- 2009 Biology in balance (Buenos Aires, October 8-11)
- 2008 Biology of the mind (Chantilly, October 16-18)
- 2007 Biology in motion (Evian, October 11-14)

# Epigenetic control and cellular plasticity

---

Organized in association with

and

2016 Epigenetic control and cellular plasticity (Irvine, USA, October 6-7)

---

## Emergence and Convergence

Organized in association with

- 2010 Epigenetic dynamics of the immune system (San Antonio, February 19)
- 2008 Mitochondrial dysfunction in neurological disease (Durham, December 5)
- 2008 Cell shape and polarity: Lymphocytes and beyond (Chicago, September 29)
- 2008 Multiple sclerosis: From pathogenesis to therapy (Paris, June 6)
- 2008 Epigenetics and behavior (Houston, March 31)
- 2007 Genome variation (Seattle, November 28)
- 2007 Role of microRNA in development, immunology and cancer (New York, October 3)
