

OUR PUBLICATIONS

(1983-2018)

**FONDATION
IPSEN**
Science for People

Under the aegis of

Our publications

Proceedings of the conferences organised by the Fondation IPSEN are published in English and distributed by international publishers.

13 titles Cancer Reports

27 titles Research and Perspectives in Alzheimer's Disease (Springer)

24 titles Research and Perspectives in Neurosciences (Springer)

15 titles Research and Perspectives in Endocrinology (Springer)

5 titles Research and Perspectives in Longevity (Springer)

7 titles WHO/Fondation IPSEN series (Springer) Brain and Mind Collection

Do not hesitate to contact us if you are interested by few of these volumes (fondation@ipsen.com)

In addition, from 1986 to 2006, the Fondation IPSEN has published over 240 issues of "Alzheimer Actualité", a newsletter dedicated to Alzheimer's disease. We have also widely distributed information to the medical professions and patient families and produced movies recognized in various festivals.

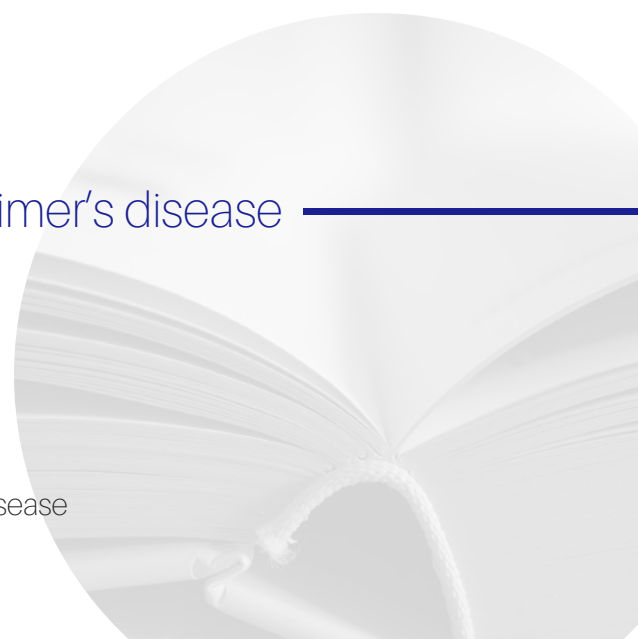

Cancer Science reports

2016	Tumor metabolism
2015	Tumor Heterogeneity and microenvironment
2014	Cancer Genomics
2013	Cancer Immunotherapy
2012	Mouse models of Human Cancer: are they relevant ?
2011	Epigenetics and Cancer
2010	Stem Cells and Cancer
2009	Molecular Targets of Cancer Therapy
2008	Metabolism and Cancer
2007	Metastasis and Invasion
2006	Are inflammation and Cancer linked?
2005	Can Cancer be Treated as a Chronic Disease?

Research & Perspectives in Alzheimer's disease

2012	Proteopathic Seeds and Neurodegenerative Diseases
2011	Protein Quality Control in Neurodegenerative Diseases
2010	Two Faces of Evil: Cancer and Neurodegeneration
2009	Diabetes, Insulin and Alzheimer's Disease
2008	Intracellular Traffic and Neurodegenerative Disorders
2007	Synaptic Plasticity and the Mechanism of Alzheimer's Disease
2006	Alzheimer: 100 Years and Beyond

2004	Genotype –Proteotype – Phenotype relationships in Neurodegenerative Disease
2003	The living Brain and Alzheimer's disease
2002	Immunization Against Alzheimer's Disease and Other Neurodegenerative Disorders
2001	Notch from Neurodevelopment to Neurodegeneration : Keeping the Fate
2000	Neurodegenerative Disorders : Loss of Function Through Gain of Function
1999	Fatal Attractions : Protein Aggregates in Neurodegenerative Disorders
1998	Epidemiology of Alzheimer's Disease : From Gene to Prevention
1997	Presenilins and Alzheimer's Disease
1996	Connections, Cognition and Alzheimer's Disease
1995	Apolipoprotein E and Alzheimer's Disease
1994	Alzheimer's Disease : Lessons from Cell Biology
1993	Amyloid Protein Precursor in Development, Aging and Alzheimer's Disease
1992	Heterogeneity of Alzheimer's Disease
1991	Neurophilosophy and Alzheimer's Disease
1990	Growth Factors and Alzheimer's Disease
1989	Biological Markers of Alzheimer's Disease
1989	Imaging, Cerebral Topography and Alzheimer's Disease
1988	Neuronal Grafting and Alzheimer's Disease
1988	Genetics and Alzheimer's Disease
1987	Immunology and Alzheimer's Disease)

Research & Perspectives in Neurosciences

2017	Genome Editing in Neurosciences
2015	Micro-, meso- and macro-dynamics of the brain
2014	Micro-, meso- and macro-connectomics of the brain
2013	New Frontiers in Social Neuroscience
2012	Programmed Cells from Basic Neuroscience to Therapy
2011	Epigenetics, Brain and Behavior
2010	Characterizing Consciousness: From Cognition to the Clinic?
2009	Macro-Roles for micro-RNAs in the Life and Death of Neurons
2008	Neurobiology of "Umwelt"
2007	Retrotransposition Diversity and the Brain
2006	Memories: Molecules and Circuits
2005	Neurobiology of human values
2003	Stem Cells in the Nervous System : Functional and Clinical Implications
2001	Neurosciences at the Postgenomic Era
2000	Neuronal Death by Accident or by Design
1998	Neuro-Immune Interactions in Neurology and Psychiatric Disorders
1997	Neuronal Plasticity : Building a Bridge from the Laboratory to the Clinic
1996	Normal and Abnormal Development of the Cortex
1995	Isolation, Characterization and Utilization of Stem Cells
1994	Neurobiology of Decision-Making
1993	Temporal Coding in the Brain
1992	Motor and Cognitive Functions of the Prefrontal Cortex
1991	Gene Transfer and Therapy in the Nervous System
1990	Glutamate, Cell Death and Memory

Research & Perspectives in Endocrine Interactions

2018	Hormones, Metabolism and the benefits of Exercise (Mars 2018)
2015	Stem cells in neuroendocrinology
2014	A time for metabolism and Hormones
2013	Brain Crosstalk in Puberty and Adolescence
2012	Hormones, intrauterine Health and Programming
2011	Multiple Origins of Sex Differences in Brain
2010	Multi-System Endocrine Disruption
2009	Novel Insights into Adipose Cell Functions
2008	IGFs: Local Repair and Survival Factor Throughout Life Span
2007	Hormones and social Behavior
2006	Hormonal Control of Cell Cycle
2005	Insights into Receptor Function and New Drug Development Targets
2004	Deciphering Growth
2003	Hormones and the Brain Control of Metabolism
2002	Endocrine Aspects of Successful aging: genes, hormones and lifestyles
2002	Brain Somatic Cross-Talk and the Central

Research & Perspectives in Longevity

2004	Frailty and Longevity
2001	Brain and Longevity
1999	Sex and Longevity : Sexuality, Gender, Reproduction, Parenthood
1998	The Paradoxes of Longevity
1996	Longevity : To the Limits and Beyond

World Health Organization-Fondation IPSEN

1999	Genes and Resistance to Disease
1994	Genetic Approaches to Noncommunicable Diseases
1993	Quality of Life Assessment: International Perspectives
1991	Free Radicals in the Brain
1990	Ethical Issues of Molecular Genetics in Psychiatry
1990	Genetic Approaches to Coronary Heart Disease and Hypertension
1989	Genetic Approaches in the Prevention of Mental Disorders
